# AUGUST BERLIN UPCYCLING FASHION

I am a Berlin Fashion Designer, living as well in Nice, France, for 2 years now.

My studio is in Berlin. The current situation holds me in Nice, where I just have a small range of fabrics and machines.

Now as we are all asked to wear masks in public, I used what I found to make stylish masks. Wearing a beautiful mask helps to feel better and to keep it on.

I used silk and cotton for wearing comfort. Every masks has 3 layers and wire in the nose line, to fit perfectly.

Of course this masks are not certified, no protection against covid-19!

But a small protection is better than no protection.
